Still The Best Laser Printers For Mac

Canon's Pixma iX6820 is an inkjet business printer that's ideal for both the home and office.. Ready to handle everything from 4 x 6-inch mailers, 11 x 17-inch spreadsheets or bigger 13 x 19-inch presentation charts, the Pixma offers exceptional printing detail at 9600 x 2100 maximum color dpi.. The 2 65-inch color touchscreen allows for quick menu selection, but you can change all the settings from the downloadable HP ePrint app, which is available on both Android and iOS.. Best Printers For A MacThis number drops slightly to nine ppm black and to six ppm color on battery, but the OfficeJet 250 has an external battery that's good for up to 90 minutes of printing.. Best Printers For A MacThe inclusion of AirPrint makes wireless printing super easy for Apple hardware owners, but Android owners aren't left in the cold with Wi-Fi Direct also allowing for mobile printing.

Measuring 23 x 12 3 x 6 3 inches and weighing 17 9 pounds, the Pixma is small enough to fit almost anywhere, but not small enough to fit into a backpack for on-the-go prints.
